25X1 3. [] of NSA called. They
25X1 had met with the Senate Internal Security Subcommittee and []
25X1 indicated the session had gone reasonably well. There were very few
25X1 questions on the [] case as such and they stated they were not in
25X1 fact investigating the case but were attempting to learn security
25X1 procedures of various agencies. Apparently there will be another
25X1 session on this. They have not yet met again with HCUA and expect
25X1 that they will be called some time in the near future.

25X1 4. [] Advised Senator Gaylord Nelson's office
25X1 that we would be unable to arrange for the Senator to have lunch here next
25X1 week but we will attempt to set something up for a visit during the week
25X1 of 25 November.

25X1 5. [] Boyd Crawford, Staff Director of the House
25X1 Foreign Affairs Committee, called again with regard to the case of
25X1 [] (Crawford had heard a news program which gave the impression
25X1 that four additional Castro prisoners had been executed.) I told Crawford
25X1 it was my information that this was merely a recapitulation of the action
25X1 previously taken several days ago and did not involve any new executions.
25X1 [] SAS, will keep us informed of any changes in connection
25X1 with this case.
